Cherry Mae Q. Atibula

Aspiring Front-end Developer
0963 265 7495 | atibulacherrymae7@gmail.com

SUMMARY

BS Computer Science student seeking a Front-end Developer role. Skilled in HTML, CSS, JavaScript, and responsive web design, with project experience in Python and image classification using convolutional neural networks (CNNs).

EDUCATION

Bachelor of Science in Computer Science
Biliran Province State University

PROJECTS

CamoteLens: Sweet Potato Variety Classification Through Leaf Image Analysis Using CNNs

- Image-based application that identifies sweet potato varieties from images of their leaves.
- Reduces manual identification effort through automated image classification.
- Supports four varieties: NSIC SP-37, Stoke Purple, VSP-7 (V20-429), and VSP-6 (V20-209).
- Accepts leaf images from the camera or gallery and keeps classification history available offline.

SKILLS

Web Development: HTML, CSS, JavaScript, Responsive Web Design, Basic UI/UX Design

Programming and Machine Learning: Python, Machine Learning (CNN), Image Classification

Soft Skills: Problem-Solving, Teamwork

CERTIFICATIONS

- Introduction to AI Literacy and Responsible Use, CHED ACHIEVE, Mapúa University, Sep 2026
- Networking Basics, Cisco Networking Academy, May 2026
